**VILLAGE CHAPEL**—No service.  
**YOUNG MEN'S CHRISTIAN ASSOCIATION**—Prayer meeting in the Baptist Church, at four p. m. Alms House at 21 p. m. Jail at 2 p. m.

## LOCAL NEWS.

**FIRE DEPARTMENT INSPECTION**—The inspection of the Alexandria Fire Department took place yesterday afternoon as proposed. At four o'clock the members and apparatus of the Sun, Hydration, Columbia and Relief Hook and Ladder Companies were at the foot of Duke street.

The commanders of the several companies were instructed to inform their members that at a given signal each piece of apparatus was to take certain position, the engines to lay out their hose and force water, and the Hook and Ladder Company to raise their ladders as soon as possible, the pressure of steam not to exceed 70 pounds at any time during the trial, and every action to be done quietly and orderly.

When the signal was given the start was made, and the scene was one of great excitement. In three minutes the Sun was at work and the Relief had every ladder in position, and the members ready for further orders. In eight minutes both steamers had sufficient steam to start, and from that time until about five o'clock were at work testing the hose, which was one of the principal objects of the inspection.

Both steamers were found to be in most perfect order, and the hose, with slight exceptions, found to be satisfactory.

The Sun engine worked well, but the small amount of hose in their charge was in very bad order.

The Sun and Relief retired early, the steamers remaining to complete the hose inspection. As the Columbia Company left the ground the Hydration gave three cheers, which was returned by the Columbia Company.

It is proper to mention, in regard to the length of time required by the steamers in making a start, that in time of fire they "light off" immediately upon leaving their houses, and the draft created on the way enables them usually to throw water by the time the hose and pipes are in place. In the trial, yesterday, more time was required, as the engines had but a short distance to move.

The citizens present appeared to be much pleased with the condition of the Fire Department, and the good order and feeling at present existing is certainly very commendable.

**POLICE REPORT**—The following cases have been reported at police headquarters since yesterday afternoon:

George Berry, alias Ward, alias Blackstar, colored, for riotous conduct near the canal basin and assisting in the escape of a prisoner from the chain gang last August, and for assaulting John Carter, also colored, was discharged upon the payment of \$24, the amount of the fines imposed upon him. He was arrested about three o'clock this morning at the house of his grandmother, in Hayti, by the police, who, after some delay in obtaining admission, found a warm but vacant bed and an open window, and, upon further inspection, discovered their prisoner hidden behind the chimney of an adjoining house.

Charles Gray, a colored boy, for assaulting Mrs. Gandy, was discharged upon the promise of his father to whale him well.

Frank Foster, colored, committed to jail for breaking into a house at Fishtown, was re-arrested and discharged.

Charles Stewart, who has been lodging at the station house for some nights past, was ordered to leave the city.

There were sixteen lodgers at the station house last night—almost as many as could be accommodated.

**BOARD OF PUBLIC WORKS**—The Washington Star says: "A bill has been introduced in the Alexandria City Council to abolish their Board of Public Works. As the Board has never done anything either good or bad during its brief existence, we suppose, as Toots says, 'it's of no consequence.' Considering the limited amount of money the Board has had at its disposal, and the hampering conditions by which it has been continuously surrounded, the wonder is that it has done so much."

**STATION HOUSE LODGERS**—Sixteen men—nearly all young—appealed for lodgings at the station house, last night, and were accommodated with benches. All of them were strangers, the majority of whom were wayfarers bound South. One who had slept there for the two preceding nights was considered a "bummer," and was detained this morning until admonished of a bummer's fate. Numbers of wayfarers are also accommodated nightly at the Poor's House.

**THE RIVER**—Owing to the long-continued drought, and the prevailing northwest wind the water in the river is unusually low, and so little change is made to its height by the flood tides that several of the smaller crafts that went up the creeks of the Potomac for loads are unable to get out. The water, too, has become brackish almost as far up this city, and salt water fish are caught in this immediate neighborhood.

**NEW DEPOT**—On Monday next the Baltimore and Potomac Railroad Company's offices in Washington will be removed from the building on Virginia avenue to the depot completed on the corner of Sixth and B streets. In the new depot gentlemen will enter from Sixth street, while the B street entrance is for ladies exclusively.

**ACCIDENTS**—At the inspection of the Fire Department yesterday afternoon, Mr. Geo. Dix, foreman of the Hydration Fire Company, was run over and badly hurt, and a spectator, named Orlando Nightengill, knocked down, by the truck of the Relief Hook and Ladder Company.

**BAD ROAD**—Great dissatisfaction is expressed at that part of Columbia turnpike lying between the Long bridge and Roach's springs. The constant passage of brick wagons to and fro has worn the road into one succession of ruts and chasms.

**THE WEATHER**—The weather has become nearly cold. Thin skins of ice were formed on the ponds last night, and the wearers of overcoats were more comfortable to date than those who were not so warmly clad—that is unless the latter were robustious.

**U. S. COURTS**—An adjourned term of the U. S. District and Circuit Courts, Judge Hughes to preside, will commence here on Monday next. The only case set for the term is that of Turnbull & Co. vs. A. Thomas.

## GRAHAM FLOUR—How to Use It.—Under-

standing from our friends, Messrs. Geo. R. Hill & Co., that this Graham Flour, made from deoecated white wheat, is sought after very generally, we append some recipes for its using and use, furnished us by the manufacturers, which they assure us, are the result of careful experiment. On our part we wish the day would soon return when the use of good, plain food shall prevail throughout the land. A little time devoted to the physiological principles of scientific cooking on the part of housewives would give us statesmen, lawyers and professional men of more brains, merchants, manufacturers and laboring men of more energy, endurance and muscle, while the social and spiritual status of each would be proportionately better. Horrell says: "Simplicity is a virtue which has almost grown out of fashion, especially in relation to food and cooking." It should be born in mind in the use of Graham Flour, that it ferments quicker than bolted flour, and should not be allowed so long a time to rise. Fermentation is simply incipient decomposition, and hence to be carefully guarded. Bolted flour has a large part of the saccharine matter thrown out; Graham flour contains all the natural sugar of the wheat berry, hence, use no sugar in its preparation:

**Graham Bread**—Set a sponge at night, thus: put 1 yeast cake to soften in 1 cup warm water; stir 1 quart bolted flour; scald with boiling water; stir till free from lumps, cool, and then add yeast. In the morning the sponge will be risen, which has almost grown out of fashion, especially in relation to food and cooking. It should be born in mind in the use of Graham Flour, that it ferments quicker than bolted flour, and should not be allowed so long a time to rise. Fermentation is simply incipient decomposition, and hence to be carefully guarded. Bolted flour has a large part of the saccharine matter thrown out; Graham flour contains all the natural sugar of the wheat berry, hence, use no sugar in its preparation:

**Graham Muffins**—Dissolve 1 yeast cake in warm water; scald quart milk; pour into 2 quarts Graham flour, let it cool and add yeast; batter should be thick enough to heap on spoon; set to rise over night; bake in hot oven; buttered rings 25 full. Don't use poor butter.

**Graham Griddle Cakes**—Into 1 pint Graham flour pour 1 pint corn meal, mix thoroughly 2 teaspoonfuls of yeast; 1 teaspoonful of salt; beat 1 egg and mix with 1 pint cold water, into which mix thoroughly the flour as prepared, and fry at once.

**Graham Gems**—Take milk and water half and half; stir in Graham flour until you have a batter that will drop from the spoon; but not too run; beat thoroughly, the more the better. The gems are supposed to have been in the oven heating. Drop into the hot iron and bake immediately. The oven should have a solid heat—no flash—and do its work thoroughly and quickly.

**Graham Cup Cakes**—Graham flour 2 cups; butter 1 cup; milk 1 cup; molasses 1/2 cup; butter 1/2 do; eggs 2; soda 1/2 teaspoonful; bake 1/2 hour.

**Graham Flour Puffs**—One quart sweet milk; 2 eggs; Graham flour to make a thin batter; fill gem cups 3/4 full and bake in quick oven.

**Steamed Graham Pudding**—Fresh butter 1/2 cup; sugar 2 do; butter 1/2 do; soda 2 teaspoonfuls; eggs 2; seeded dates 1 lb.; Graham flour, enough to make a thin batter; chop the dates fine and roll in the flour before adding to batter, and steam for 3 hours. Eat with cream or sauce.

**Graham Bird's Nest Pudding**—Is made by laying in a deep dish quartered apples, and pouring over them a thin batter of Graham flour; 1 teaspoon of milk and about 1/2 teaspoonful soda. Bake till the apple is cooked.

**RELEASED**—Mr. S. O. Bagot, who was committed to jail by Justice Padgett on Wednesday night last on the charge of forging a receipt for \$1.75, was brought before Judge E. M. Lowe, of the Corporation Court, at five o'clock yesterday afternoon and discharged upon the ground of a defect in the Justice's commitment. He was represented by his counsel, Mr. Clifton, Mr. Johnson, Commonwealth's Attorney, appearing for the State.

**ORONOKO STREET**—The Board of Aldermen at their meeting, last night, agreed with the Common Council in the latter's action upon the grade at the intersection of St. Asaph and Oronoko sts., the effect of which will be the filling up of the trench lately dug on the north side of Oronoko street, just east of St. Asaph, and the establishment of the present surface grade at that point.

**THE MARKET**—An abundance of everything good to eat—that is, in season—was in market this morning. In the game line were deer, wild turkeys, pheasants, partridges, hares, quails, coons and opossums; and of fish, many of the varieties that frequent the waters of the Potomac. The attendance of both buyers and sellers was large, and the ruling prices were not considered exorbitant.

**FOR EUROPE**—The steamship Ohio, which sailed yesterday afternoon for Bremen via Southampton, took out among her cabin passengers Mrs. R. B. Haxall and Miss Haxall, Miss Mildred Lee and Robert E. Lee, all of Richmond, and Miss Carrie Mason, of Loudoun county, Va.

**SCHOOL TRUSTEES**—The State Board of Education have appointed the following school trustees: Fairfax county:—Mount Vernon district, F. F. Triplett, reappointed. Prince William county:—Gainesville district, Major A. H. Johnston, vice G. G. Gallaher, resigned.

**Mr. James Corrie**, Dentist, in Baltimore, writes: "I have used Dr. Bull's Cough Syrup personally and in my family for two or three years, and am prepared to say that there is nothing to compare to it as a remedy for Coughs, Colds, etc."

## Ague Conqueror:

NO QUININE, ARSENIC OR POISONS. This is strong language, as Physicians and Chemists have for years tried to compound a preparation that would entirely cure Fever and Ague without the use of strong medicine, such as Quinine, Arsenic and other poisons injurious to the system. There is no case of Fever and Ague, Intermittent or Bilious Fevers, Congestive Chills, Night Sweats, Liver Complaints, &c., that this remedy will not cure at once and permanently. It purifies the Blood, Liver, Spleen and all secretory organs so effectually that the Chills will not return during the season, even when persons have had them for years. Sold by all druggists.

nov 9-2m HENRY COOK & CO., Wholesale Agents.

## LADIES' FINE FURS.

We received this morning, from one of the largest Fur dealers in the North, a very choice line of the above popular goods, and will hold at low prices.

## TELEGRAPHIC NEWS.

[SPECIAL DISPATCHES TO THE GAZETTE.]

## Fire in Warrenton.

WARRENTON, Nov. 14.—A fire broke out in the Warren Green Hotel, last night, the main building of which was destroyed. Messrs. J. H. and B. F. Rixey are the proprietors, and they estimate the loss on the building and furniture at \$20,000, upon which there is partial insurance. It is thought the Virginia Mutual Fire Assurance Association will suffer to the extent of five thousand dollars on the building, and the Virginia Fire and Marine Company suffers to the extent of four thousand on the building and one thousand on the furniture. The cause of the fire is not known.

## More Trouble in Arkansas.

NEW YORK, Nov. 14.—A Little Rock dispatch of the 12th says: To-day Lieutenant Governor V. V. Smith returned from the East, and learning that in his absence Gov. Baxter had turned the Executive office over to Governor-elect Garland, issued a proclamation setting forth the fact that he was elected Lieutenant Governor for four years in 1872, and that his time not having expired, and Baxter having abdicated, he was Governor of the State. The proclamation of Smith depreciates the use of force in the settlement of the question, which is entirely a legal one. He claims that he is acting under advice of leading attorneys, and that he will be recognized by the United States authorities. The legality of the new constitution is involved in this question, and the matter must be finally settled by some tribunal outside of the State. The following has been sent to President Grant:

"Sir:—The Constitution of the State of Arkansas that was ratified on the 13th of March, 1868, and under which said State was admitted to representation in Congress under certain conditions and restrictions, recited in the act entitled an act to admit the State of Arkansas to representation in Congress, passed June 20, 1868, provides, among other things, for the office of Lieutenant Governor, the term of which is four years. At the election held in said State on the 5th of November, 1872, I was elected to said office of Lieutenant Governor for a term of four years, and on January 6th, 1873, duly qualified as such, and have continued so to act from said last-mentioned date. The 10th section of article 6 of said Constitution declares: 'In case of impeachment of the Governor, his removal from office, death, resignation, inability, or removal from the State, the powers and duties thereof shall devolve upon the Lieutenant Governor during the residue of the term.' &c.

"On my return to the State after a brief absence I find that Elisha Baxter, the recognized Governor, has abdicated and abandoned the office of Governor and turned the same over to one A. H. Garland, who pretends to execute the office of Governor under and by authority of a pretended constitution which he claims was ratified by the people of said State on the 13th of October last. The manner and mode of amending or changing the constitution of the State is distinctly stated in the article.

"The change of constitution attempted to be made was not and is not in accordance with said article but under the provisions of 'An act to provide for a convention to frame a new constitution approved May 16, 1874, a copy of which is hereto attached. The State of Arkansas was admitted to representation in Congress upon certain fundamental conditions named in the act of June 22, 1868, which I claim are violated by the pretended new constitution. I also claim that the constitution of the State of Arkansas cannot be altered or amended in any other manner than that provided by the constitution itself and that pointing out how this constitution should be altered or amended is an inhibition on the General Assembly and people of the State to pursue another or different mode.

"The abdication of the office of Governor and abandonment thereof by Elisha Baxter, in law amounts to constructive or parol resignation. In such case under the provisions of section 10 of article six of said constitution, the duties of the office of Governor devolve upon me as Lieut. Governor. By and through the treachery and connivance of Elisha Baxter I find A. H. Garland in the Executive office discharging the duties thereof. Not only this, I find a body of men in the Legislative Halls, who pretend to be members of the General Assembly of the State of Arkansas, and who are attempting to legislate for the people, who were not elected at the time nor in the manner provided by the constitution and laws of said State. I also find a new set of pretended judicial officers acting as supreme and circuit judges, who were not chosen at the time nor in the manner provided by the constitution and laws of said State. In short, I find a new government set up during the absence of the legitimate and lawful Governor of the State of Arkansas, and that the officers of the pretended Government have in some instances by violence and force displaced officers holding similar positions under the Constitution alluded to. By reason of this state of affairs and other causes all contributing to the same end, domestic violence exists in this State, which is too powerful to be suppressed by the ordinary process of law, or the militia at my command.

"Now therefore, I, V. V. Smith, Lieutenant Governor of the State of Arkansas, Elisha Baxter, the recognized Governor of said State having abdicated and abandoned said office, do hereby, and by these presents, make application to the President of the U. S., under laws passed in pursuance thereof to guarantee said State of Arkansas a republican form of government and protect the same against domestic violence. The Legislature of said State is not now in session and cannot be convened at this time without great detriment to the public interests. Any attempt to do so would result in augmenting confusion and anarchy, and would probably lead to strife and unnecessary bloodshed."

This appeal is signed "V. V. Smith, Governor of Arkansas."

## The Franklin Telegraph Co.

BOSTON, Nov. 14.—An offer of thirty-five thousand dollars yearly for the lease of the lines, &c., of the Franklin Telegraph Company has been made by the Boston capitalists who are interested in the line. The offer is made by them mainly in consequence of an effort made recently in a stockholders' meeting by the Atlantic and Pacific Telegraph Company, who own the controlling interest in the stock, to lease the property of the company to themselves for \$25,000 yearly.

## The Great Race.

SAN FRANCISCO, Nov. 14.—The weather is very favorable for the four mile heat race. Over 27,000 French pool tickers have been already sold. Katie Pease is still the favorite at big odds. One of the latest pools sold was Katie Pease, 600; Thad Stevens, 250; Joe Daniels, 135; the field, 250.

## From Buenos Ayres.

MONTREAL, November 12.—Advises from Buenos Ayres say the government squadron which was dispatched to meet the insurgent flotilla retired without an engagement. There has been no movement by either the government or the insurgent armies.

## Political Amnesty.

PARIS, Nov. 14.—The Council General of the Seine has rejected the proposition recommending the National Assembly to pass a bill granting amnesty for political offenses.

## Embargoed.

SANTANDER, Nov. 14.—All the available steamers in this port have been again embargoed by the Republican military authorities as transports.

## Weather Probabilities.

WASHINGTON, Nov. 14, 11 a. m.  
 For the Middle States generally clear and cold weather will continue with variable winds and high barometer.

## The Markets.

NEW YORK, Nov. 14.—Stocks active and higher. Money 3. Gold 107 1/2 Flour quiet and steady. Wheat a shade firmer and advancing. Corn advancing.  
 BALTIMORE, Nov. 14.—Virginia 6s, peelers, 42; Virginias, consolidated, 55; do. ex-coupons 62; West Virginias 10. Cotton firm; low middlings 14 1/2. Flour quiet and unchanged. Wheat strong and in good demand; amber Western 118 1/2; No. 1 red Western 120 1/2; No. 2 do. 117 1/2; fair to prime do. 118 1/2; rejected 110; red Maryland 120 1/2; do. amber 130 1/2; do. white 112 1/2. Corn strong; stock light; white Southern 73 3/8; yellow Southern 73 3/8; mixed Western 57. Oats firmer; Southern 65 1/2; Western mixed 62 1/2; do. white 64 1/2. Rye firmer and higher at 92 1/2. Hay unchanged. Coffee entirely nominal. Sugar unchanged.

## LOCAL BREVITIES.

While Mr. Cowling was on his way from this city to his store in West End, this morning, the buggy he was driving upset on Commerce street and threw him and the gentleman who was riding with him out, but, fortunately, neither of them was hurt.

At Balston, (Ball's Cross Roads,) Alexandria county, Va., Sarah L. Collins has been appointed postmistress, vice Lewis J. Collins, declined.

General Eppa Hunton was in this city last night, but left on the morning train for his home in Warrenton.

Mr. Joel Miller, formerly of this city, is one of a company in Baltimore who have applied for a patent for an improved car coupler.
